

Safe Behavioral Practices

The CDC recommends that everyone make behavioral changes to reduce the spread of COVID-19. To reopen America, everyone needs to continue the following practices:

- Social distancing (specifically, staying 6 feet away from others when you must go into a shared space)
- Frequently washing hands or use alcohol-based (at least 60% alcohol) hand sanitizer when soap and water are not available
- Wearing cloth face coverings
- Avoiding touching eyes, nose, and mouth
- Staying home when sick
- cleaning and disinfecting frequently touched objects and surfaces
- When using public amenities, consider wiping down the surface before use
